This parent-facing document is intended for admissions, orientation, and family communication. Final policies, calendar dates, tuition support, and program details may be updated by school administration before the start of the school year.

Tuition & Scholarship Support Overview

Al-Farooq Elite Academy is being built as a serious community investment in our children. The school seeks to make quality Islamic education accessible while still maintaining strong academics, professional materials, safe operations, and a high-quality classroom experience.

Our Approach

The masjid is determined to raise funds and scholarships to cover a major portion of tuition costs when possible. Parents will be expected to cover the remaining family balance after scholarship and fundraising support is determined.

- Scholarships and fundraising support depend on available funds.
- Tuition support may vary from family to family based on school policy and available resources.
- Families may be asked to complete a tuition support form or provide additional information.
- Final remaining balance and payment expectations will be communicated by the school office.
- Families should not assume full tuition coverage unless it is confirmed in writing by the school.

What Tuition Helps Cover

- Teacher compensation and classroom staffing.
- Curriculum, books, workbooks, assessments, and classroom materials.
- Qur'an, Arabic, and Islamic Studies program resources.
- Student records, communication, and school operations.
- Safety, facility use, cleaning, and administrative support.
- Professional planning and future grade expansion.

Family Next Steps

- [] Submit enrollment application.
- [] Indicate interest in scholarship / tuition support on the application.
- [] Wait for school follow-up regarding available seats and next steps.
- [] Complete any tuition support form if requested.
- [] Review final remaining family balance when issued.
- [] Complete family agreement and payment plan if applicable.

Important

Tuition support is a blessing and a responsibility. Families are asked to communicate clearly with the school and complete required steps on time so the school can plan responsibly for teachers, materials, and classroom needs.
